Note: The translation of the title "

Naklejam I Maluj? Pierwsze Naklejanki W.2011

" is not straightforward and might be interpreted in different ways. However, based on the context, it seems that the title is a Polish phrase that roughly translates to "I Stick and I Design First Stickers W.2011". The date "W.2011" is likely a Polish abbreviation for the year 2011.
