

Unlocking Meaning: A Guide to Semantic Predication in Bulgarian

Unlocking Meaning: A Guide to Semantic Predication in Bulgarian

Author: Chris Collin

Publisher: readolla.com

Published date: 2024

Here's the translation to English:

Bulgarian Predicators' Dictionary of Sem. Trans. and I.

Part I: Introduction to Semantic Predication

• 1.1. Definition and History of Semantic Predication

- 1.1.1. Differences between semantic predication and linguistic predication
- 1.1.2. Basic theories of semantic predication
- 1.1.3. Examples of applications of semantic predication

• 1.2. Foundations of Semantic Theory

- 1.2.1. Definition and types of meanings
- 1.2.2. The role of context in semantics
- 1.2.3. Semantic analysis of words and expressions

• 1.3. Semantic Predication in Natural Languages

- 1.3.1. Characterization of semantic predication in natural languages
- 1.3.2. Comparison of semantic predication with linguistic predication
- 1.3.3. Examples of applications of semantic predication in natural languages

Part II: Semantic Predication in the Bulgarian Language

• 2.1. Characterization of Semantic Predication in the Bulgarian Language

- 2.1.1. Differences in semantic structure of Bulgarian words and expressions
- 2.1.2. Applications of semantic predication in the Bulgarian language
- 2.1.3. Comparison of semantic predication in the Bulgarian language with European languages

• 2.2. Semantic Predication in the Bulgarian Language in Context

- 2.2.1. The role of context in semantic predication of the Bulgarian language
- 2.2.2. Applications of semantic predication in the Bulgarian language in communication
- 2.2.3. Comparison of semantic predication in the Bulgarian language with linguistic predication

• 2.3. Semantic Predication in the Bulgarian Language and Other Languages

- 2.3.1. Comparison of semantic predication in the Bulgarian language with Slavic languages
- 2.3.2. Comparison of semantic predication in the Bulgarian language with Indo-Aryan languages
- 2.3.3. Comparison of semantic predication in the Bulgarian language with African languages

Part III: Applications of Semantic Predication in the Bulgarian Language

• 3.1. Applications of Semantic Predication in Communication

- 3.1.1. Use of semantic predication in business communication
- 3.1.2. Use of semantic predication in media communication
- 3.1.3. Use of semantic predication in public communication

• 3.2. Applications of Semantic Predication in Science and Education

- 3.2.1. Use of semantic predication in teaching the Bulgarian language
- 3.2.2. Use of semantic predication in research on the Bulgarian language
- 3.2.3. Use of semantic predication in teaching semantics

• 3.3. Applications of Semantic Predication in Communication Technology

- 3.3.1. Use of semantic predication in artificial intelligence systems
- 3.3.2. Use of semantic predication in natural language processing systems
- 3.3.3. Use of semantic predication in real-time communication systems

Part IV: Conclusions and Perspectives

• 4.1. Summary of Research Results

- 4.1.1. The role of semantic predication in the Bulgarian language
- 4.1.2. Applications of semantic predication in communication and education
- 4.1.3. Comparison of semantic predication in the Bulgarian language with European languages

• 4.2. Perspectives on the Development of Semantic Predication in the Bulgarian Language

- 4.2.1. Applications of semantic predication in new fields
- 4.2.2. Development of new methods for semantic analysis
- 4.2.3. Comparison of semantic predication in the Bulgarian language with Slavic languages
